Social and Club News, Personals, Fashions, Home Hints and Other Items of Interest to the World Feminine.

SOCIETY

Col. and Mrs. James H. Raley left yesterday evening for Rochester, Minnesota, where Mrs. Raley will undergo treatment at the famous Mayo Institute for a malignant growth. They were accompanied on the trip by Dr. Guy Boyden.

Mr. and Mrs. George Rose, who have been assisting Dr. E. J. Bulgin in the evangelistic services here, will leave Wednesday for Dinuba, California, where Rev. A. L. Crim has already started revivals. Mr. and Mrs. Rose were presented a Pendleton Island blanket by the members of the tabernacle choir.

Mrs. Jacob Nelson, an aunt of Sheriff T. D. Taylor, and one of the oldest pioneers of Umatilla county, is here from her home at Athena to spend a few days.

Mrs. Dave Rogers will entertain the ladies of the Busy Bee Club at her home, 515 Blaine street, tomorrow afternoon.

Mrs. Frank B. Hays and baby returned yesterday from a visit at the Strand ranch at Vansycle.

Miss Kathryn Woodruff, one of the Athena teachers, spent the week-end in Pendleton.

Miss Ruth Dunaway of Echo, was a week-end guest of Miss Irmalee Campbell.

Miss Pearl Price of Echo, was a Sunday visitor in Pendleton.

Home Hints and Recipes

Bacon in Flour.

An appetizing way to fry bacon is the following: Cut in slices, put in frying pan, cover with boiling water, and let stand for a few minutes. Remove the bacon, roll in flour and fry crisply.—Los Angeles Express.

Hot Pastry.

Always heat the plates on which you serve hot breads or hot pastry of any kind, says Mother's Magazine. The most delicious rolls or cakes or pies will become heavy and soggy if they are put on to a cold plate while they are still warm.

Honey in Beans.

Prepare white beans in the usual way for baking, but substitute honey for molasses, which gives the beans a delicious, superior flavor.—Los Angeles Express.

Travel Help.

A nice way to keep collars, jabots, ribbons and such things smooth when packing in a suitcase is to put them between the different leaves of a magazine. This takes up less room than a box in a suitcase and is very convenient when removed to the dresser drawer, as it keeps these small articles smooth and nice.—Modern Priscilla.

Place to Keep Playthings.

I find this plan most successful for keeping the children's toys, living as I do in a small house, writes a contributor to The Modern Priscilla. I secured four boxes of equal size (dry goods boxes), large enough for two to give a small wardrobe effect when placed upon the other endwise. The ends of the other two boxes were used for shelves in these. The whole was placed in a convenient corner and covered smoothly with cretonne. In the lower box, closed by a loosely hanging curtain, the children were taught to put all toys. The upper box was neatly lined with canvas through-

cut, and with a curtain meeting the one below and having a draw-string at top and bottom. It provided three dust-proof shelves for linen or any of the many things that it is hard to find a place for in the small house. The outside appearance is very effective, especially if the cretonne is matched with other hangings, or with the paper of a room.

Effect of Lines.

In planning for remodeling or decorating it is well to remember that vertical lines on a wall increase the apparent height of the ceiling, while on the other hand horizontal lines on the walls will bring the ceiling down, says the New York Press. When the ceiling is too high striped papers and all vertical lines are to be avoided.

Small Boy's Suit.

An attractive bloomer suit for the small boy is of striped cotton crepe, says the Newark News. It is in sailor fashion with short trousers. The Donkey suits with light trousers and dark blouses or the dark trousers and blouses promise to be in demand.

Cook Book Cover.

Covering the cook books with paraffin paper will keep them in good condition and at the same time allow the lettering on the back and sides to show, says the Ladies Home Journal. Besides looking neat the books will be so well protected that they will last longer.

Box for Food.

A charming gift is the cretonne-covered box of tin in which foodstuffs may be kept, says the Newark News. It is especially nice for college girls or those who are boarding.

The Care of Children

Don'ts for the Baby.

Don't—Urge him to stand on his feet too young, for if you do he will become bow-legged.
Don't—Give solid food before one year and then sparingly.
Don't—Give him candy, chocolate and sweet things.
Don't—Let him lie in a wet napkin.

Don't—Let hands and feet get cold.
Don't—Let the nose get clogged up.
Don't—Give him tea and coffee, beer, whiskey, gin, or any drink containing alcohol.

Don't—Give him medicine or drugs without the doctor's advice.

Don't—Let him stay up all hours of the night, undress and put him to bed promptly at six every night.

Don't—Pick him up every time he cries.

Don't—Walk the floor with him.

Don't—Let any one kiss baby on the mouth, much disease is carried in this way.

Don't—Take him out in wet weather, or on very windy days, or when there is melting snow on the ground.

Don't—Handle him too much, it is bad for him.

Don't—Pin band or diaper too tight about the body, as it may cause deformity and often is the cause of vomiting.

A Warning—to feel tired before exertion is not laziness—it's a sign that the system lacks vitality, and needs the tonic effect of Hood's Sarsaparilla. Sufferers should not delay. Get rid of that tired feeling by beginning to take Hood's Sarsaparilla today.—Adv.

SHORT CIRCUIT.

Sad husband: You said you'd love me as long as the world goes round. Or was it my money?

Wife: Your money didn't go round very long.—Chicago Daily News.

CHARLES B. HANFORD

Who tells the thrilling story of Captain Scott's expedition to the South Pole in connection with the most remarkable pictures ever shown, at the Oregon theater, Tuesday, March 10.

CHARLES A. JOHNS IN GUBERNATORIAL RACE

WELL KNOWN PORTLAND ATTORNEY OUT FOR REPUBLICAN NOMINATION.

PORTLAND, Ore., March 9.—Charles A. Johns, a well known attorney of Portland, has formally announced that he is a candidate for governor subject to the republican primaries. Mr. Johns' name has been mentioned in connection with the governorship for some time, but it was only yesterday that he reached the definite decision to submit his name to the voters.

Mr. Johns has been a resident of Oregon since 1858. In fact he has lived in the state nearly his entire life, being but a child when his parents removed from Missouri to Oregon. His early life was spent in the vicinity of Seilo. He is a graduate of Willamette university where he received the degree of M. A. On leaving the university he took up the study of law, in the practice of which he has been

SUFFRAGISTS PLAN TO CAPTURE VOTE IN SOUTH

BIRMINGHAM, Ala., March 9.—Women suffragettes in the opening of a two day's conference here promised to take an open handed swat at Representative Underwood. They declared that his position against suffrage, and his pledging the democratic party against it, was a sufficient reason to keep him out of the United States senate, for which he is now a candidate. The question, however, caused somewhat of a division in the ranks, for some of the members held that such an attack would not have an ill effect on his chances, inasmuch as the state is not yet strongly pro-suffrage.

Dr. Anna Howard Shaw and her cohorts from the national suffragette organization were on hand when the convention was called to order today. The doctor, despite a recent painful injury, promised to take a leading part in the conference. The more radical delegates today thought that an active stumping campaign for Hobson as against Underwood would be the proper medicine to apply to the leader of the democratic majority of the house.

Don't Neglect Catarrh

or resort to snuff and vapors—they only irritate the delicate membranes.

Modern science proves catarrh a symptom of poor health.

Treat the cause with SCOTT'S EMULSION which contains pure cod liver oil to enrich the blood and energize the system, hypophosphites to nourish and rebuild the nerves, and glycerine to soothe and heal.

Thousands testify that Scott's Emulsion overcame catarrh in a permanent natural way and it will surely help you.

Avoid the alcoholic substitutes

continuously engaged up to the present time.

Mr. Johns began his professional life at Dallas, but afterward located in Baker, where he resided for 24 years. Two years ago he came to Portland.

D'Annunzio Back to Italy.

PARIS, March 9.—Gabriel d'Annunzio, the Italian poet who announced some years ago that he had come to France to live and never expected to return to Italy, will go back to his native land this spring according to an announcement made today. He will spend some time at Florence. D'Annunzio's creditors are understood to have influenced his stay abroad.

POSTMASTERS NAMED FOR OREGON TOWNS

WASHINGTON, March 9.—The president nominated the following Oregon postmasters: Russell H. Sullens, Prairie City; C. W. Holloman, Haines; Paul C. Belt, Williamina; Victor P. Moses, Corvallis; J. H. Young, Hermiston; Archie Parker, Mouth, and M. M. Fitch, Sherwood.

DON'T COUGH YOURSELF Into a Serious Condition

To neglect a cough or cold is always a hazardous act. A cold so often goes down on the lungs, and the cough that follows may easily be a symptom of bronchitis, pleurisy, or even pneumonia. Coughing frequently follows attacks of influenza, and is severe and persistent, is a tax on the system that weakens the vital resistance. Foley's Honey and Tar Compound is an effective medicine for coughs and colds. It is a perfect demulcent that may be relied upon for quick relief. A man named A. R. Ellison, Taylor, Wis., writes: "I make a point of recommending Foley's Honey and Tar Compound to all those needing a certain and safe cure from coughs and colds." For sale everywhere.

SCENE IN NEW YORK STREETS SHOWING CITY HELPLESS IN STORM

With ten inches of snow that fell on Sunday and Monday New York City was rendered almost helpless. How much merchants lost because they could not deliver goods may never be known. Some estimates have gone higher than \$10,000,000. Trains

on all the roads coming into the city from the north, south and west were delayed for more than ten hours.

On Manhattan Island few of the street car lines were open. It was possible to get around only because the elevated lines and the subway could not be blocked with snow. In Brook-

lyn traffic was almost suspended. Staten Island, which is another borough of the city, had no street car lines in operation at all.

It has been estimated that the cost of removing the snow will be not less than \$1,000,000. A storm just preceding had cost as much.

RAILROAD FINISHES WORK OF DREDGING FERRY SLIP

OAKLAND, Cal., March 9.—The Santa Fe railroad has finished dredging its new big ferry slip at its Oakland terminal on the Estuary, on the 33 acres for which it recently paid \$1,000,000 and which it is rapidly improving. It is the intention of the railroad to form a colony of manufacturers and jobbers on this land, building the most up-to-date system of trackage, loading and unloading platforms and warehouses in the country. Short time leases will be made on the

property in order to get the colony established quickly.

The new ferry slip will accommodate the largest of the railroad's car flatboats, and it will be able to handle dryloads of freight from all bay points without the necessity, as is now the case, of rehandling. The entire terminal plant will, Santa Fe officials say, be ready to operate in 1915.

Norwegians Going South.

CHRISTIANIA, March 9.—Emigration from Norway has taken a strong turn to Mexico and the Gulf of Mexico regions of the United States ac-

cording to government report issued here today. Heretofore Norwegians have with few exceptions emigrated to Wisconsin, Minnesota, the Dakotas and the Pacific Northwest, but the trend is now said to be Southward. The Norwegian Mexican Gulf Steamship line has just greatly increased its capital to provide facilities for the new traffic.

The new cannery erected at Salem by Hunt Bros., of San Francisco will give employment to 250 persons during the season.
